Message to My Colleagues,

This election is not about public-private healthcare. This election is about choosing a leader who has the experience, the energy, and the optimism to serve all physicians and patients, as we seek solutions to the challenges in health care funding, access, and delivery.

As your president, I would solicit your input in achieving positive responsible change.

Let’s build a strong, active, representative association that will lead in making our health system responsive to the needs of doctors and patients.

If elected I will advocate to:

• achieve accessible health care for all, regardless of ability to pay, in a system that is universal, sustainable, effective, and efficient

• support changes that enhance professional satisfaction in our practices and hospitals

• provide valuable input from frontline physicians to government (I have good relations with MOH and I was the Premier’s keynote speaker at the BC Conversation on Health)

• represent all specialists and family physicians (I have 3 FP family members in BC)

• address issues in physician funding

An engaged membership is a strong membership uniting to cause Positive Responsible Change

VOTING ENDS MAY15

Ballots Emailed April 18th

Search your Inbox for helpdesk@everyonecounts.com or visit www.doctorsofbc.ca for full voting info.
